Subject: Report from the Epi Workshop at Hopkins last Fall

Hi All,

Some of you were able to attend the Epidemiology Workshop that NCEA organized last September at Johns Hopkins. Hopkins has drafted their report and circulated it for EPA comments. Even if you were not able to participate in the Workshop itself, we would still appreciate your comments if you are able to review the report (24 pages total).

Please review and provide your comments, suggestions and recollections of important but unmentioned discussion points.

The group at Hopkins would like our comments on this draft by May 27 (Friday before Memorial Day). I would like to be able to send them a consolidated set of our comments. Since it may be difficult for us to integrate more than a handful of individuals' comments into a single track changes version, my preference would be to receive comments listed in the style of journal peer-reviewer comments with major and minor comments identified. That will allow me to organize your input most effectively.

Please send me your listed comments by noon on May 27.

Of course, if you do have tracked edits and cannot summarize them in list form, we still want to receive your comments.

The final version of the report will be submitted to EPA by June 30.

If there are individuals who I have forgotten to post this to, please notify me.

Thanks!

Tom
